Fastmarkets Evolution

Fastmarkets has been on a transformational journey since our earliest presence in commodity markets in 1856

1.0 Publishing House

The Jacobsen, AMM, Metal Bulletin, RISI & Agricensus

Fastmarkets heritage stretches back centuries to 1856 when various publishing houses started reporting on the markets

2.0 Digital Subscription Business

Metal Bulletin, American Metal Markets, RISI

Fastmarkets' brands all went through the print to digital transformation moving from advertising revenue to subscription-based revenue

3.0 Price Reporting Agency

Fastmarkets Ltd.

In 2015 Fastmarkets transitioned from a digital subscription business to a price reporting agency with a clear focus on market reflective pricing with audited and trusted methodologies

Fastmarkets 4.0

Powered by Astorg

Continued expansion of commodity price offering (21 new prices under review)

Expansion to further fundamental data sets underpinning forecasts.

Expansion into analytics within opaque & high growth markets

Expansion into adjacent commodity markets (3 under review)

Cost curves and modelling to supplement world-class data

Continue to expand through strategic M&A to better serve our customers

Fastmarkets Capabilities

Powering Cost Efficiency, Amplifying Margins, and Ensuring Uninterrupted Supply with Fastmarkets' Strategic Partnerships.

Commodity Pricing Data

Benefit from our team of over 200 expert price reporters who deliver market-reflective commodity prices. This data helps optimize supplier contracts and inventory, while mitigating the impact of price volatility.

News and Market Analysis

Our 160 reporters provide insights on industry developments, geopolitical events, regulatory changes, and competition. This enables you to stay agile and minimize risk in fluctuating markets.

Forecasting and Analytics

Our expert analysts provide data-driven insights to anticipate commodity supply chain performance, helping you prepare for potential disruptions and strategize accordingly.

Bespoke Consulting Services

Our experienced consultants offer guidance based on a deep understanding of commodity markets and strategic decision-making, helping refine sourcing strategies, assess cost-saving initiatives, and explore growth opportunities.

Events and Networking

Participate in our 25 influential events that drive and shape the global commodity markets. These events provide opportunities to boost brand visibility, share best practices, and engage with customers, potential clients, and key partners.
